# Ayush Varsani

Software Engineer - ayushvarsani203@gmail.com - 9879096790 - Ahemdabad, GJ - LinkedIn

## PROFESSIONAL SUMMARY

Full-stack developer with 3.5+ years of hands-on experience, skilled in React, Next.js, Node.js, and PostgreSQL, delivering scalable and reliable web applications. Experienced in CI/CD pipeline setup and cloud deployment using AWS services including EC2, LightSail, S3 Bucket, and IAM user management. Proficient in AI-assisted development using Cursor, ChatGPT, Claude AI, and Gemini for faster coding, optimization, debugging, and productivity.

## WORK EXPERIENCE

**Venusapps Pvt. Ltd** **Dec 2025 - Present**
Full Stack Developer Ahemdabad,GJ

- Leveraged modern AI tools like **Cursor and Claude** to accelerate development, improve code quality, and optimize debugging workflows.
- Integrated **Python-based services and APIs** for data processing, automation, and backend workflows, improving system efficiency and reliability.
- Collaborated with cross-functional teams and contributed to **task planning, code reviews, and team coordination**, ensuring timely and high-quality delivery.
- Worked extensively with **Next.js, React.js, and NestJS**, **Node JS, GraphQL**for full-stack development, building scalable, modular, and high-performance web applications.

**Proaxiom Pvt. Ltd** **Sep 2024 – Dec 2025**
Full Stack Developer Brisbane, Australia (Hybrid)

- Worked extensively with **Next.js** and **React.js** for both **frontend and backend (Full-Stack)** development, building scalable, modular and optimized application features.
- Implemented **cloud deployment using AWS**, configuring **CI/CD pipelines** for frontend using **AWS Amplify**, and worked with **EC2**, **RDS**, **S3 Bucket**, and **IAM** for secure infrastructure management.
- Developed **component-based and reusable UI features** using **React, TypeScript, and Vite**, ensuring high performance and maintainability.
- Contributed to backend microservices, implementing structured **modular architecture** and managing **database migrations** using **Knex.js** for smooth versioning and deployment.
- Built and deployed multiple **static and dynamic websites** using **React.js & Next.js**, ensuring **cross-platform responsiveness and UI consistency** across all devices.
- Led full-cycle development and deployment of scalable web platforms, establishing clean architecture and coding standards from project inception.
- Conducted research, configured infrastructure, and deployed applications on hosting platforms such as **Hostinger** to ensure stable performance and availability.

**4C Consulting Pvt ltd** **Sep 2022 – Aug 2024**
Trainee Software Engineer Ahmedabad, GJ

- Progressively advanced from Intern to Trainee, gaining hands-on experience in **full-stack development** using React.js, Node.js, .NET, SQL Server, Angular, and PHP across multiple internal and client-based projects.
- Improved **API performance and data retrieval speed** by analyzing database structures, optimizing stored procedures, and enhancing SQL views and queries.

- Implemented **frontend enhancements and backend API modifications**, including PDF generation features, while adapting quickly to varied technology stacks and business requirements.
- Strengthened understanding of **Agile development, independent problem-solving, time management, and technical adaptability**, contributing effectively to deliverables and sprint-based tasks.
- Learned to manage development teams using **Agile methodology**, focusing on **sprint planning**, task prioritization, and collaborative delivery.

---

SKILS

| | |
|---|---|
| Frontend Technologies | React.js, Next.js, TypeScript, HTML, CSS, Bootstrap, Material UI, Prime React, Prime NG, Responsive UI/UX, Component-Based Architecture |
| Backend Technologies | Node.js, Nest.js, Express.js, .NET MVC, Python (Basic) |
| Database & Storage | SQL Server, PostgreSQL, |
| Cloud | AWS (EC2, Amplify, S3, IAM, RDS), Azure Static Web Apps, CI/CD Pipelines, GitHub Actions, |
| Tools | Git & GitHub, VS Code, Cursor, Postman, Swagger, Jira, Visual Studio, Antigravity, Claude, Codex, |
| Version Control System | Git, GitHub |
| Other Capabilities | Clean Code Practices, System Scalability, Documentation, Communication, Team Collaboration, Task Planning & Ownership |

## PROJECT EXPERIENCE

---

**ORBIT ONE**

- Worked on a **client-side enterprise platform**, developing core modules including **Job, Timesheet, Roster, Shift Opportunity, Organization, and Employee management** with role- and position-based linkage.
- Created and integrated backend APIs, managed **Swagger API documentation**, and ensured proper data flow and security across modules.
- Built reusable components, aligned UI with functional requirements, and provided support for the **Foundation Module**.
- Technologies **:- React.js, Node.js, PostgreSQL, Db diagram, Jira, Codacy**

**Publication Portal**

- Developed an **e-commerce-based Publication Portal** with features for browsing, viewing, and managing digital publications.
- Implemented **secure login and user session flow**, along with **Add-to-Cart** and **subscription management** functionalities.
- Integrated **email notification workflows** to enhance user engagement and improve subscription lifecycle management.
- Technologies :- **React.js, Node.js, PostgreSQL**

**Tresstalent – Job Portal Platform**

- Developed a salon-focused **job portal platform** enabling salons and beauty professionals to connect through job postings, resume management, and application tracking.
- Developed **role-based dashboards** for salon owners and job seekers with profile management, job filtering, saved jobs, real-time application status, and **user-tier plan restrictions**.
- Implemented secure **OTP authentication**, integrated **AWS S3 + PostgreSQL**, automated email notifications, and enabled subscription flow for **plan upgrades and renewals**.
- Technologies :- **Next.js , PostgreSQL, Jira**

**Rent Payment**

- Created end-to-end **project flow diagrams and documentation**, defining system structure, user journeys, and module interactions.

- Performed **R&D on tenant and landlord workflows**, outlining functional requirements and improving process clarity.
- Contributed to implementing **e-document signing functionality** to support secure digital agreement handling.
- Technologies :- **React.js, Node.js**

**CT-CRM (Multi-Tenant System)**

- Worked on implementing **multi-tenancy architecture** and complete project setup using **React.js and Node.js**, ensuring isolated and secure tenant environments.
- Designed and configured **role-based workflow and hierarchical access control**, aligning features and visibility with user permissions and organizational structure.
- Developed and integrated core functional modules including **Expense Management** and **HRMS**, enhancing operational efficiency and system usability.

**Sarthi Bus – Gujarat Bus Booking System (Frontend Developer)**

- Built a **real-time bus booking platform** using React.js with responsive and user-friendly UI for smooth user experience across devices.
- Integrated **PhonePe payment gateway** for secure, seamless online ticket transactions.
- Optimized UI performance, navigation, and component structure for a smooth and reliable booking experience.
- Technologies :- **React.js**

**Pharma 24/7 – Medical Inventory & Billing Software (Frontend Developer)**

- Built and optimized **frontend modules** for inventory, billing, purchase, sales, returns, and stock tracking using React.js.
- Designed user-friendly screens for **customer & distributor management** along with bank and cash workflow pages.
- Ensured a **clean, responsive UI** for seamless day-to-day operations and better usability across devices.
- Technologies :- **React.js**

**ProMaster – ISO Certification Management System**

- Implemented **ISO-based operational modules** including Organization Management, QRF Form, Estimation, and Proposal modules.
- Developed the frontend using **Angular**, integrated APIs using **.NET**, and managed data using **SQL Server** for secure and scalable functionality.
- Technologies :- **Angular , .Net , SQL server**

## EDUCATION

| | | | |
|---|---|---|---|
| **Bachelor Of Engineering** | Silver Oak University, CGPA: **9.73/10** | **2020 – 2024** | Ahmedabad, Gujarat |
| **HSC (GBSE Board)** | Kaushal Vidhya Bahan School, Percentage**: 71.72/100** | **2018 – 2020** | Surat, Gujarat |
| **SSC (GSEB Board)** | Ankur Vidhya Vihar School, CGPA**: 81.4/100** | **2017 – 2018** | Surat, Gujarat |
